The support unit of the DGB trade unions

- Safety for all occupational activities
- Protection on all commutes to work
- Support after accidents

Dear **colleagues**,

The risk of making mistakes at work has never been so high.

Additionally, physical strains have become a problem. As a consequence, mistakes such as e.g. the breach of your supervisory obligations, providing incorrect information, loss of work keys, traffic accidents or computer damages have become typical mistakes.

The GUV/FAKULTA, as a support unit of the trade unions, protects you from financial consequences provoked by such mistakes and generally helps you in case something occurs.

We are constantly adapting our services to the latest requirements regarding your protection.

Our latest added service: Now, the allowance for compensation of damage in case of key loss is as inclusive as the assumption of costs of the retained amount of an own-damage or liability insurance.

And this, with the same membership fee! What does this means to you: The benefit of 2 new services for the same amount of 21 Euro per year! Does this sound good? Take a look at this flyer.

Best regards

Olaf Hofmann
